

CCEC Rebate Program

Depending on the age of your appliances and other factors, there's a good chance you are wasting energy and spending more money than you need to. With Carteret-Craven Electric Cooperative's **Appliance Rebate Program**, you have extra incentive to replace older, energy-hogging appliances with new ENERGY STAR qualified models.

Small Appliances

The cooperative is offering a **\$25** rebate for new ENERGY STAR qualified small appliances purchased on or after January 1, 2011. The appliances include:

Rebates are available for the following large appliances purchased on or after January 1, 2011:

- **Energy Star heat pump** (14 SEER to 16 SEER) **\$ 25**
